The latest addition to your ZX Spectrum system!

NEW ZX INTERFACE 2 £19.95

ZX Spectrum PLANETOIDS

ZX Interface 2

sinclair

ZX Spectrum PLANETOIDS

Loads programs instantly! Takes two joysticks!

Just plug-in and play!

The ZX Interface 2 is the latest new peripheral for the ZX Spectrum system. It enables you to use new ZX ROM Cartridge software: plug-in programs that load instantly. It allows you to use two standard joysticks, without the need for separate, special interfaces.

To use new ZX ROM Cartridge programs, just connect Interface 2 to the rear of your Spectrum or Interface 1, and plug in the Cartridge of your choice. Switch on, and the program is loaded, ready to run!

You can use any joystick that has a standard 9-way D plug.

Use one or two of them for extra fun with ZX ROM Cartridge or Sinclair cassette programs– or with dozens of other Spectrum-compatible programs!

ZX Interface 2, for beginners and experts.

If you're new to personal computing, and wondering which peripheral to add to your Spectrum, take a closer look at the new ZX Interface 2. It's a simple, tidy way to get more fun from your Spectrum, fast.

Because the complete program is stored in the separate cartridge, your Spectrum's RAM is unused which means you can now use a 16K RAM Spectrum to run some of the programs written originally only for 48K machines!
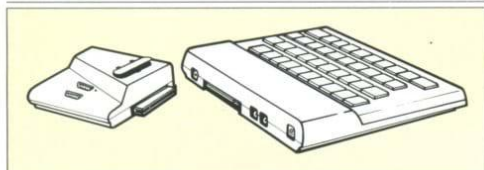

ZX Interface 2 is easy to use. And at the remarkably low price of £19.95, it's easy to buy, too!

If you're already building a ZX Spectrum computer system, add a little fun with ZX Interface 2. It works independently of other peripherals, and can be added to a system that includes ZX Interface 1, ZX Microdrives and the ZX Printer.
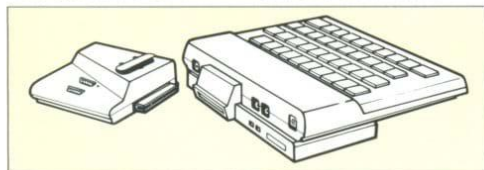

Which joysticks?

Simply, *any* joysticks with a 9-way D plug (the widely-used computer industry standard connection). Remember, you need only add the joysticks.

Everything needed to match joystick to Spectrum (and the software) is built into the ZX Interface 2. So you save the extra cost of a separate special interface. And of course, your joystick controls will work with cassette-loaded programs, as well as new ROM Cartridges.
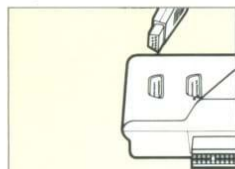

ZX Interface 2 simply plugs into the port at the rear of your Spectrum. No other connections are needed.
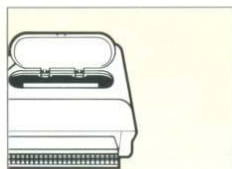

ZX Interface 2 works independently of other peripherals, plugs into rear of ZX Interface 1.

ZX Printer plugs into rear of ZX Interface 2.

Joystick ports accept standard 9-way D plugs. No need for a separate joystick interface.

ROM cartridge simply plugs into top of Interface 2.

Which games?

There's already plenty of choice of ZX ROM Cartridge programs for your Spectrum. Thanks to ROM cartridge technology, you can run them *all* on 16K RAM Spectrums, even if they were written originally for 48K machines. And every ZX ROM Cartridge program loads fast and faultlessly. No wires, no worries about loading errors! All of them are affordably priced too, at £14.95.

NEW! PSSST! You're Robbie the Robot. Your task: to protect a rare plant from a host of vicious garden pests. Choose the right insecticide, and make sure the pests don't take a bite out of you! Not for weedy players!

NEW! JET PAC Deliver and assemble spaceship kits on your way round the galaxy. Collect precious materials as you go. But don't run out of fuel, and beware of indignant aliens!

NEW! Cookie Struggle against the odds to collect and mix the ingredients of a recipe. Stop them getting into the dustbin by mistake, and watch out for inedible nasties jumping into your mixing bowl. Fast-moving panic in the pantry, with a cast of real characters!

NEW! Tranz Am As driver of the futuristic Super Blown Red Racer outwit the Deadly Black Turbos in the search for 8 Trophies. Set in a time when petrol replaces gold – so don't run out of fuel or overheat! Exciting action on a playing area equivalent to 600 times screen size!

Space Raiders Protect the Earth from advancing waves of menacing aliens. The all-time arcade favourite.

Planetoids Dodge and blast passing planetoids, shoot down alien saucers, beware of bomb attack!

Hungry Horace The original action-packed voracious Horace game!

Horace and the Spiders Help Horace across rough terrain, across deep chasms, and into the most horrific house of spiders. Then kill or be killed!

Chess The most rewarding way to learn, improve and enjoy your skills in the world's classic board-game.

Backgammon The ancient, fashionable game of skill. With playing board, stones, rolling dice and doubling dice shown in full-colour and high resolution. With four levels of skill.
